bramble	Ground ivy	
sycamore	Nettles	
field maple	Wood small-reed	
ash	bracken	
rowan	ivy	
holly		
elder		
elm		

**SUMMARY DESCRIPTION**

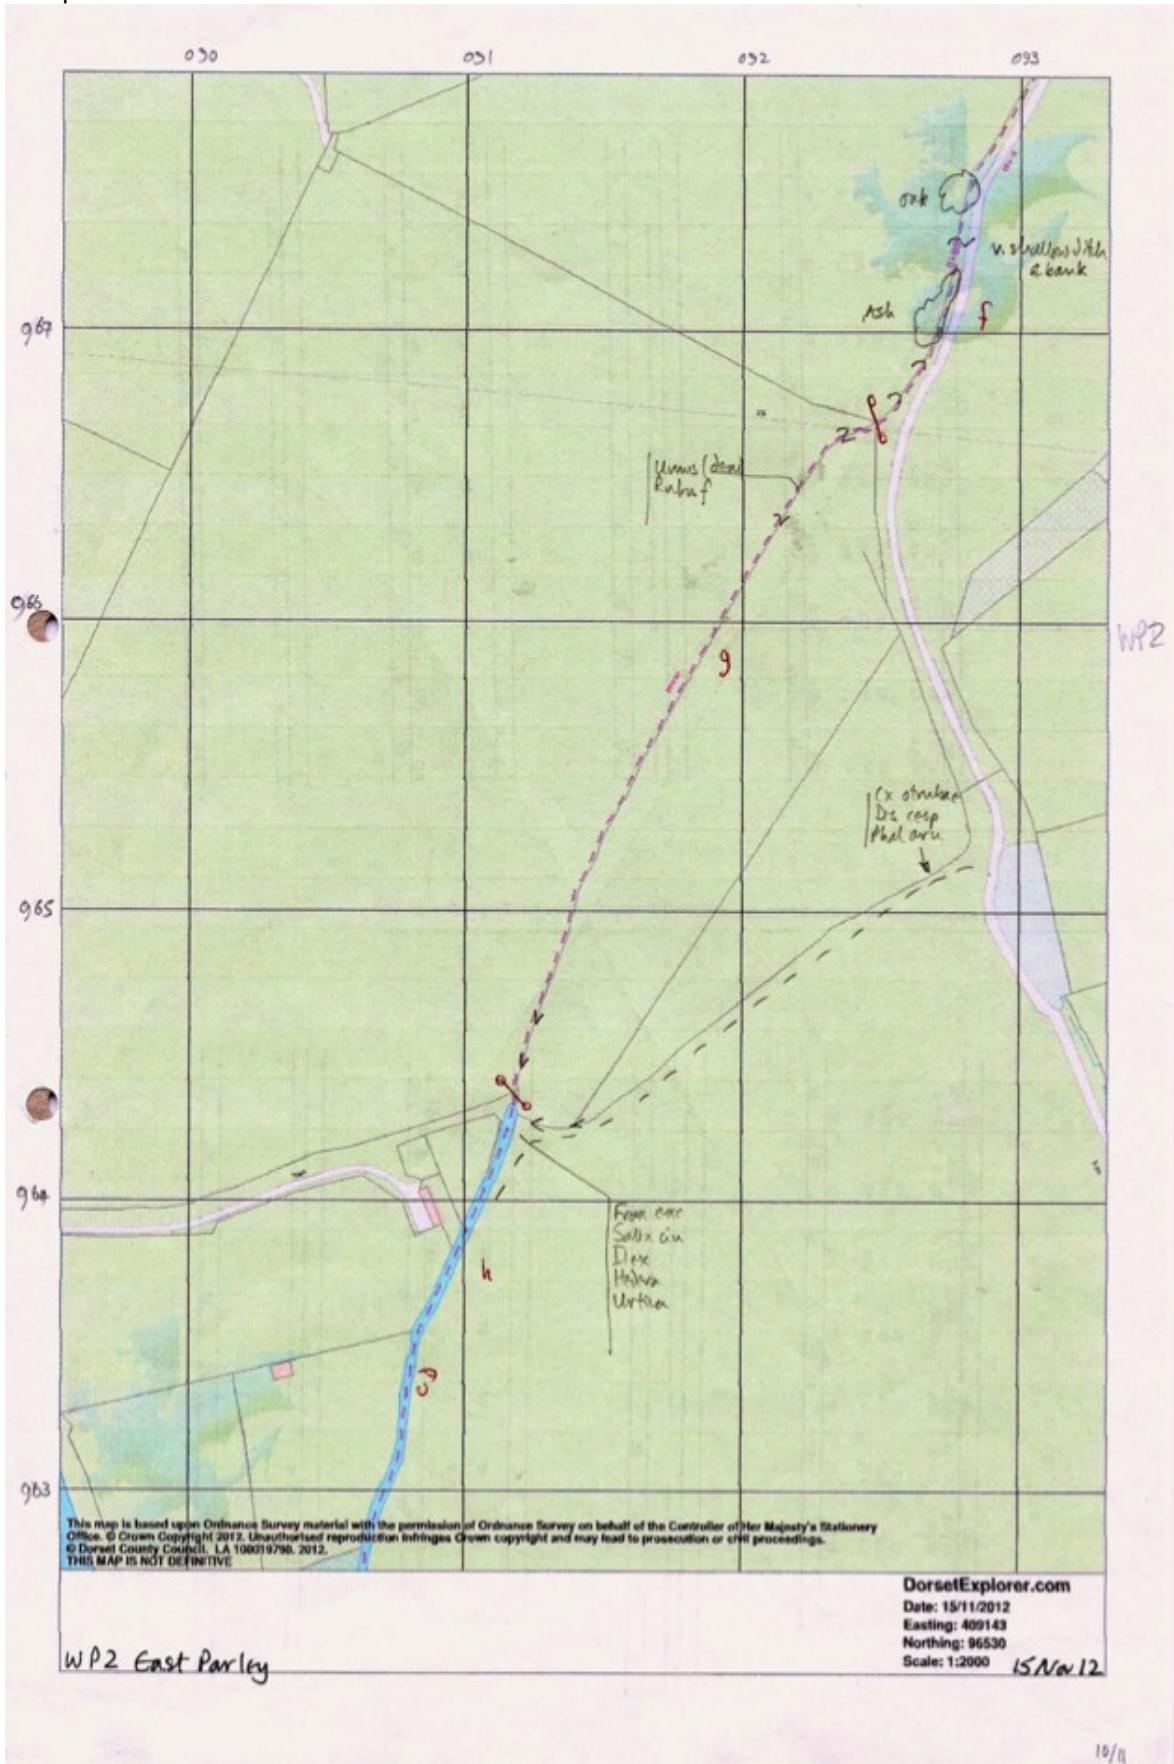

From the S side of the B3073 the boundary continues as a ditch with a low bank, rather indistinct in places There is a barbed-wire fence and intermittent hedges separating arable fields on the E from horse paddocks on the W.

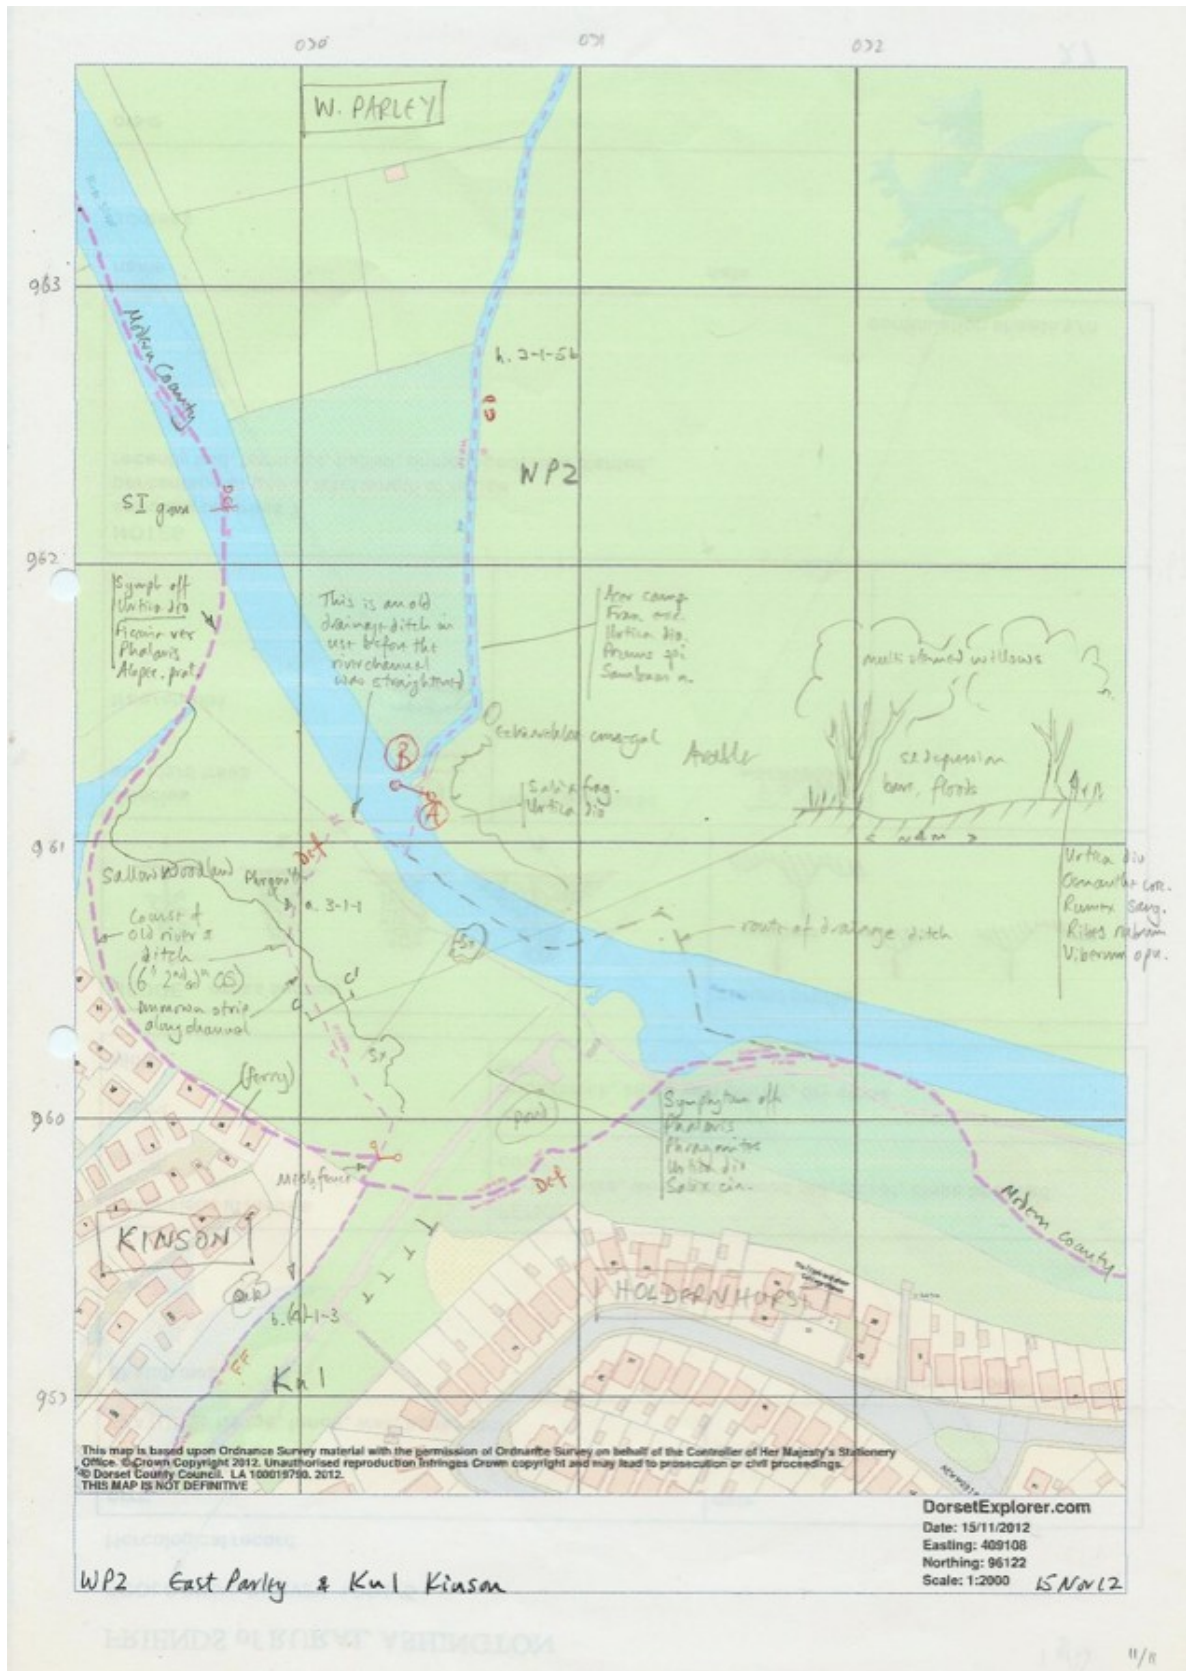

When the boundary meets the track it follows this on the N W side for the length of a field and continues in the same direction, curving round to the R. Stour and the lost ford of Riddlesford. For the last length the boundary follows a drainage ditch. The present Stour has been straightened but the old course is preserved in the route of the modern county boundary, the limits of building and the ditch line in the curious shape on the Bournemouth side of the Stour.
